

MARIPOSA MOUNTAIN

A cafe experience like no other

MARIPOSA MOUNTAIN

Mariposa Mountain; a butterfly themed cafe/shop with a gallery feel.

CAFE INTERIOR

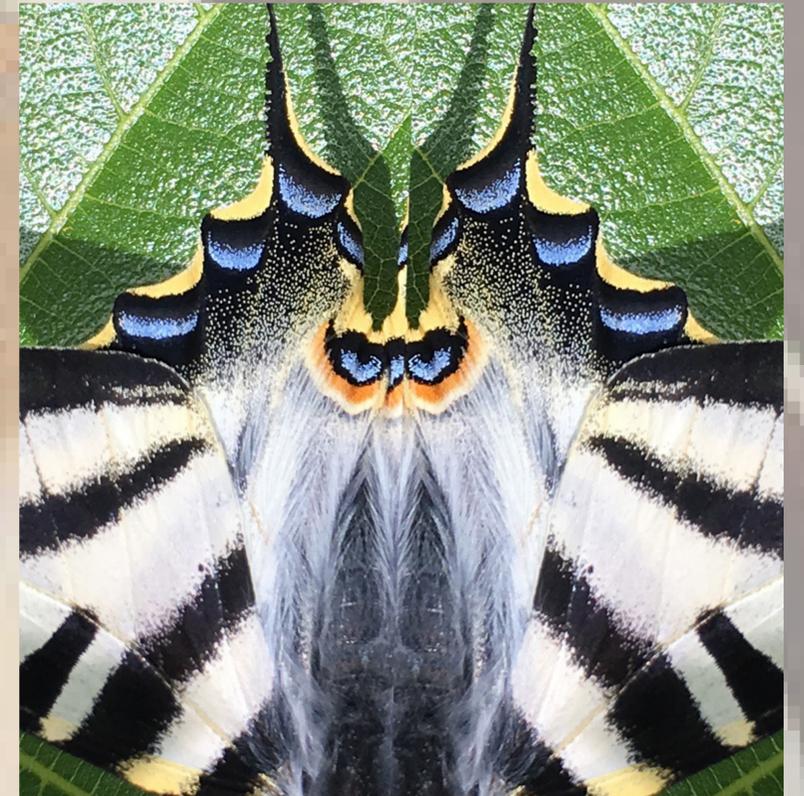

Large open planned spaces provide hanging space for the best butterfly prints from the collection.

SHOP

Situated at front of house, customers have to walk passed the shop to get to the cafe. The shop sells all the items from the online store, and much more.

CUSTOMER EXPERIENCE

The interior of every cafe/shop is a visual feast for the senses. Any of the photographs in my collection can be used to dress the wall spaces. In addition they can also be reverse printed on glass, or acrylic, and backlit. The translucency of the glass works perfectly with the translucency of the butterfly wings to create incredibly absorbing visual focal points. High definition videos and photographs look stunning when they are projected onto wall spaces or displayed on large screens. The possibilities for the interior are endless, but my vision is simple. Display the right pictures, in the right places, and in the right way.

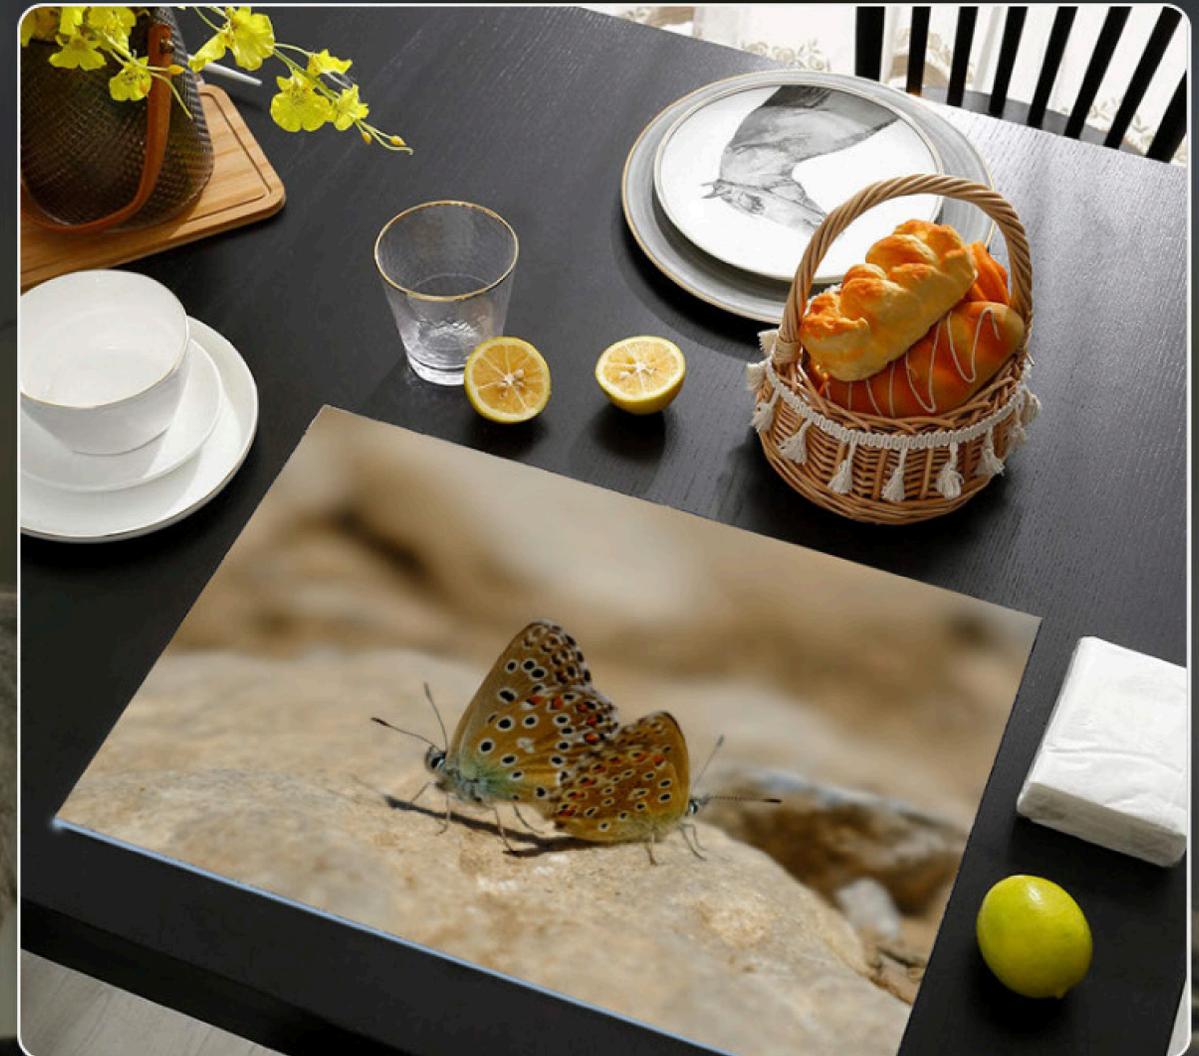

My vision for the cafe/shop can be crystallised in the following sentence. "I want jaws to hit the floor when customers walk in. And I want their stomachs smiling when they walk out:".

INTERIOR DESIGN

Photographs can be printed onto the reverse side of toughened safety glass, or acrylic. The print quality is the same as high quality gloss paper. Inks are waterproof and heat resistant, which means we can produce custom placeholder mats and coasters, using any image in the photographic collection.

Some photographs are perfectly suited for lighting panels. One 24"x 36"" LED light panel can comfortably illuminate a medium size room. Click on any of the images to visit the product page to learn more about direct to glass printing.

Beautiful, tranquil, stimulating, inspirational, unforgettable.

MARIPOSA MOUNTAIN

Una experiencia de café como ninguna otra.

Authenticity, uniqueness, gentleness, compassion, respect.

ENVIRONMENTAL CREDIBILITY

many companies adopt an environmental cause to enhance their image. I did it because I care.

If we wipe out bees and butterflies you can say goodbye to your Weetabix in the morning, your loaf of bread, your bowl of fruit salad and virtually every other form of edible food. We should all be aware that growing food using toxic poisons, such as Roundup, has the potential to cause widespread famine.

The Guardian Angel butterfly conservation program is my contribution to making the world a better place.

CUSTOMER LOYALTY REWARDS PROGRAM

Mariposa Mountain sells a range of beautiful products that can be used as incentives to encourage regular attendance. Loyal customers will get a free cup of coffee, and they can get a beautiful mug to drink it out of. Points can be saved up and redeemed for any of the products in the catalogue. Our incentives program is one of the best in the industry,

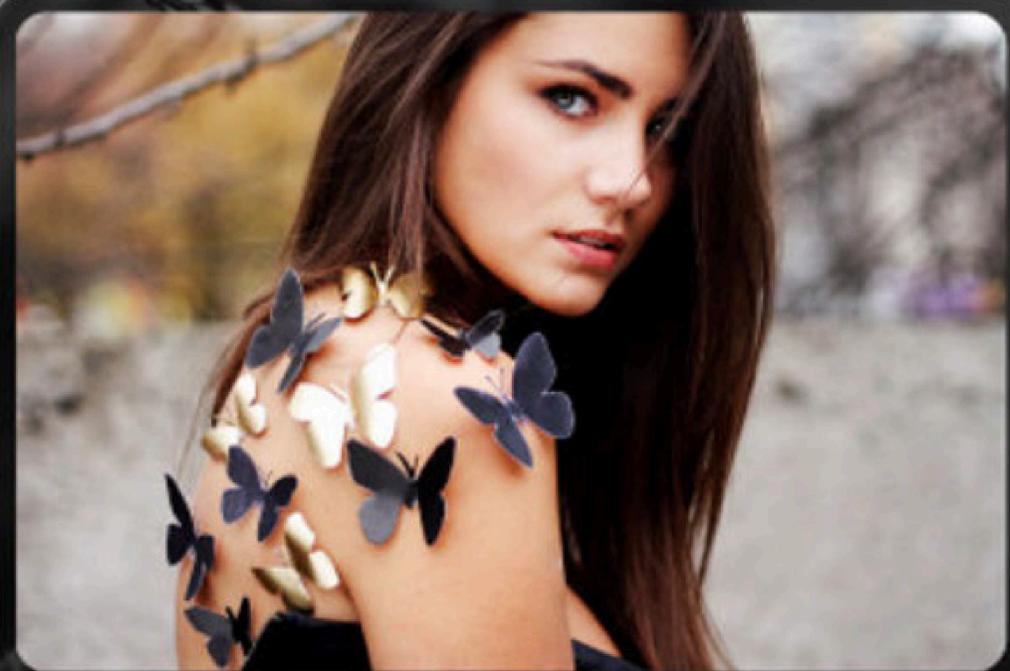

INVESTOR OPPORTUNITIES

The majority of coffee chains rely on profits from sales of coffee and food items. Mariposa Mountain has its own range of exclusive printed products. A few of our products can be viewed in the online store. If you like my vision and wish to invest in a cafe of your own, you can.

BUTTERFLY WINGS

A COLLECTION OF 60 ORIGINAL POEMS

BY
TAUN RICHARDS

My book Butterfly Wings is a collection of 60 original poems. Each poem is accompanied by a beautiful black and white photograph. Copies of the book will be freely available for customers to read while they enjoy their food and drinks.

Butterfly Wings is also available as a digital E-Book for customers who prefer using their digital tablet.

Copies of the book can be distributed royalty free as I am the author and copyright owner of the completed work.

If you wish to discover more about this very unique book, and its origins, click on the pictures to visit the website.

"I learned it is the weak who are cruel, and that gentleness is to be expected only from the strong"
